Notable features:

Number 895 has been formstoned.

Lombard Street should be included in the urban rehabilitation area. The owners of these houses have been and are caring for them. They have had brutal traffic thrust upon them and deterioration of interior block with which they have had to live.

These houses are good for their period, each in its own way excellent. See the doors at 891, for example, and the taste with which 889 has been handled.

Environmental context:

Lombard Street; good terrace opposite. Good street trees, which could stand feeding.
